Dear Mr Lee,

14 June 2018

Application ref 18F/1203
ID 3649971

St James Methodist Church Hall, Church Rd Sth, Liverpool L25 7RJ
Planning Application 18F/ 1203

To install new glazed entrance doors with glazed canopies to front and side, erect single storey extension to side, erect 1.5 metre weldmesh fence to High Street boundary and new paved area to Church Road South frontage

Your records will already show that the Residents Association has raised no objection to this application, but in light of recent adverse comments apparently circulating on social media and questions put to us, Committee Members took the opportunity to study the plans in detail again at our June committee meeting, to check for any concerns.

The Residents Association Committee of 12 June 18 considered the above proposals in detail and would confirm members fully support the application in all its aspects. The proposed design of the new building elements in our view, are an excellent match to the existing building, bringing together the requirements of disability provision regulations, child care health and safety, safe storage and safe play areas into an historic building.

Likewise, the building materials proposed are well chosen.

Would you please inform the Association of the council decision on this application.
